December 24, 2007

To the Advanced Continuity/BDA Global Team,

I am writing to thank you for providing us with experts with strong experience in risk management and business continuity planning (BCP) to help define and guide our organization's preparedness program. In the last 18 months members of your team, Ron French, JJ Nathan, and Gaston Boisson were able to help us build a new BCP strategy, develop a training and exercise program, and conduct tabletop exercises to ensure that our BCP team is well prepared to respond to disruptive events.

The use of a well defined data gathering and analysis strategy via your BIA tool, CONTINUUM, along with the leadership of your team, resulted in an efficient planning process that minimized lost productivity and yielded an actionable BCP for the Police and Fire Federal Credit Union. Your team exhibited strong professionalism, conscientiousness, and a commitment to excellence. As such, I would happily recommend your services to other financial institutions.

Sincerely,

Terry Wetsel

Police and Fire Federal Credit Union
